

RAW

AUGUST 13TH 2011

Are you ready for this year's biggest rave?

During the last couple of weeks the RAW-crew have been working hard to finish the line up and land the very last names for the year's biggest rave event.

13 hours of electronic urban music presented by skilled promoters from Copenhagen's club venues. A line up presenting everything from the biggest stars of international house DJs to upcoming grime rappers will be playing at seven different venues spread all over the Carlsberg area.

We've recently revealed two legendary head liners ; the world's currently biggest house star **Roger Sanchez** and techno pioneer **Joey Beltram**. Furthermore we've announced the arrival of English **Valve Soundsystem** bringing along their enormous homemade sound system in three trucks which most definitely will be taking over Carlsberg with deep, heavy bass.

RAW is now proud to present even more fantastic names for the great line up. Another head liner, dubstep's absolute biggest dj- and producer these days, English **Benga**, who just played a terrific gig in the Magnetic Mac constellation at Roskilde Festival (DK). We've also landed a very special booking, **Foals**, who also played at Roskilde Festival with a 'dream concert' according to the reviews. At RAW they will be showing their worth as DJs with a hard core disco house-set.

From Denmark RAW will be featuring a variation of high quality bookings. One of the better known artists is house producer and dj **Rune RK**, who we are always happy to welcome at RAW's parties. Along with him is singer Clara Sofie, and the young grime rapper **Stanley Most**. We are also proud to present underground phenomenon that everyone's talking about, **B.O.C.** Kesi and Benny Jamz from B.O.C. mediates something as rare as Danish grime.

As usual the RAW crew is striving to give the audience an extraordinary experience in the Carlsberg area. We've hired one of Copenhagen's strongest profile VJ teams, **Dark Matters**, who along with **Arkitekturministeriet** will be creating a raw and innovative scenography. This year's theme is yet to be revealed but it will be spectacular.

RAW will be presenting Scandinavia's leading rave event August 13th, 2011.
